

Planning

The Website that I have created is a portfolio of mine that talks briefly about my life like what are my Hobbies and achievements. The website contains three pages index, Achievements and Hobbies. The index page is the home page of the website where it contains a brief introduction of me like what I do and where I come from and there are links attach there, so it will be easier what I am talking about. It also contains a picture of mine and at the end my contacts if any error occurs. The second page is the About page, it contains what I have achieved so far in my life and some of the things I do to learn new things. In there I talk about my participation in the 2023 Game jam and a link to the game that m team and I made. I also talk about Ted Talks, and I listed some of the Ted Talks that I like with links if anyone wants to watch it. I also talk about my involvement in the Science fair in my school and as I like to play games, I also put a video of my gameplay In Valorant and at the end same as the index page I put my contacts if any error occurs. At the last page I talk about my hobbies like what I like to do in my free time and what are my favourite anime and I listed them with links to the images which takes you to the trailer video of those anime and also, I put a direct link of a YouTube video and also a audio file. I also listed some games that I like and the movies that I like with the link to where to watch it for free. At last, I put a table of the countries that I have been to in my life and their capital city name and at the end I put my contacts if any error occurs.
